

Lighting Packages

Event lighting has become a must have for any elegant, unique or upscale event space. Lighting always helps to enhance a room's atmosphere as well as focus the attention of your guests on certain aspects of your special event. Before reading through these specific packages, we'd like to give you a touch of Lighting 101. With lighting design, it's important to know what you would like to light and how you may want to light it. Everything from your budget, the room dimensions (height width length), possible rigging points, to the amount of available power may be needed to choose the correct lighting package for your event.

Options: Lighting options can be overwhelming. Lighting particular elements in a venue may have as many options as you can think of to do it. There are hundreds of ways to accomplish lighting sometimes with different fixtures that can do a lot of fancy things, but have most of the same effect. It's important to remember that at the end of the day you get what wish to achieve with something that can fit in your venue, come in on budget and have the power to do it. Whether you go all out or keep it simple. If you need help going through some of these options ask one of our professionals to help you.

Style: We find there are many clients that want to achieve a certain "look" or avoid another, for instance a possible night club experience or an elegant wedding feel. The most important thing to note is that lighting is in the eyes and control of the operator and can always be adjusted to be as subdue or as exciting as you would like. Expressing your look to us as well as designs and colors at what times during your event will help us make your style reality. For those trying to decide what lighting to get don't be afraid if it looks too 'out of your style' Lighting can always be operated or placed to your desire to achieve your style.

Most of our packages are all inclusive and include local delivery and labor. Multiple package orders may qualify for special pricing. We also match and beat prices on the same products on any written quote. If you have any questions please feel free to call and ask our professionals.

Uplighting

Conventional Uplighting

Basic Event Lighting is a touch of elegance needed for any special event. Through the use of Par Can lights, you can create a look of color on any wall or fabric. This is a great way to include a color theme for any event. The static color wash is created by the use of gel's that remain on the lights for the entire evening. (A good rule of thumb is one unit every 8-10')

- 24-Piece Par Can 38 Package: \$850
- 48-Piece Par Can 38 Package: \$1,050

LED Uplighting

With more than 16 million colors that can change throughout your event night or remain one single color, you will surely have a room that is dressed to impress! We use sleek, compact, wireless units that can be programmed on-site. What's even better is this unit is battery operated, so you won't see any wires or cords around the perimeter of your event! With the use of LED lighting, the colors are vivid, bright and controllable. (A good rule of thumb is one unit every 8-10')

- 10 Piece LED Light Package: \$1,000
- 24 Piece LED Light Package: \$2,000
- 48 Piece LED Light Package: \$3,500

Uplight Pipe & Drape Dressing

If you happen to have no walls or the walls in your facility are too dark. With Pipe and white sheer Drape we can make or cover your walls and perimeter. The sheer fabric will soak up the color of your uplighting and enhancing your package.

- 12' Tall \$100/per 10' section
- 16' Tall \$125/per 10' section
